

3M™ DI-NOC™ Film

Interior & Exterior Design Solutions

DI-NOC

Features:

DI-NOC has been developed as a high class decorative wall covering for interior applications. (Some items can be used for exterior.)

A wide variety of designs and surface textures including:

- Wood grain,
- Single color,
- Metallic,
- Stone,
- Leather,

Excellent adhesion and flexibility allows for application to many substrates and complex curved shapes.

3M™ DI-NOCT™

Sample Series & Product Features

3M™ DI-NOC™ Film

Fine Wood Series

FW Fine Wood

- 73 designs
- Select designs suitable for exterior applications
- Authentic wood look

Metallic Wood Series

MW Metallic Wood

- 2 designs
- Suitable for **exterior** applications
- Metallic wood look

Wood Grain Series

WG Wood Grain

- 120 designs
- Select designs suitable for **exterior** applications

Carbon Series

CA Carbon

- 7 colors
- Suitable for **interior applications only**
- Suitable for **3D application**
- Pattern is created by using 3M Micro-Replication Technology

Single Color Series

PS Single Color

- 90 colors
- All colors suitable for **exterior** applications
- **Anti-bacterial** feature
- Hospitals
- Food processing areas

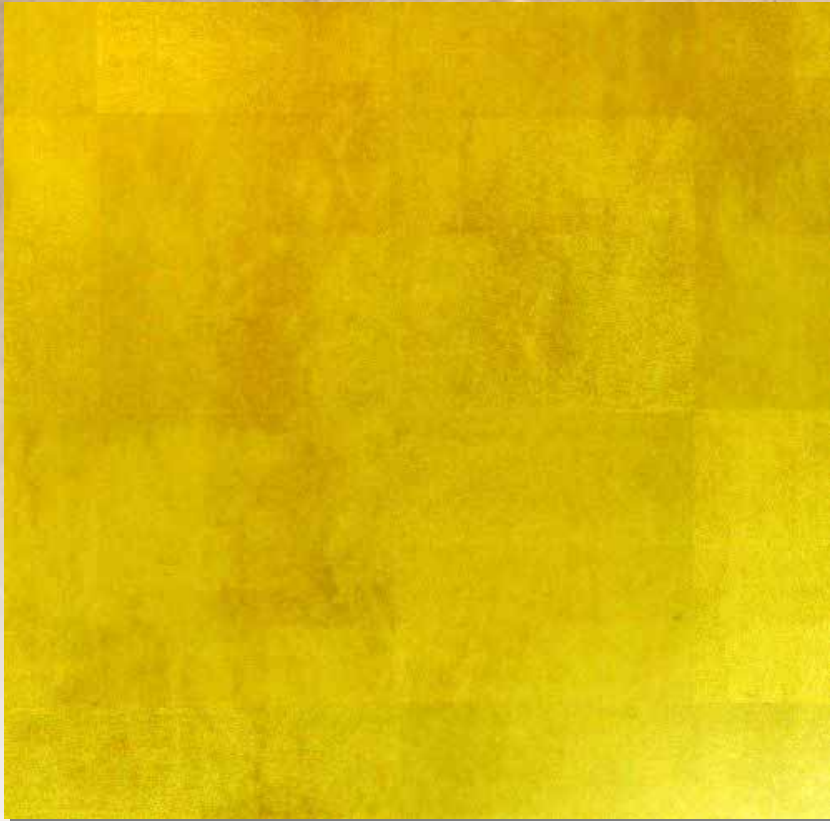

Metallic Series

ME Metallic

- 15 designs
- Select designs suitable for exterior applications

Hyper-Metallic Series

HM Hyper-Metallic

- 4 designs
- Suitable for **interior applications only**

✦ Special minimum order quantities and lead-times apply to the Hyper-Metallic Series.

VM Metallic Series

VM Metallic

- 15 designs
- Glossy finish
- Suitable for interior applications only

Chic Series

PA Chic

- 21 designs
- Select designs suitable for **exterior applications**

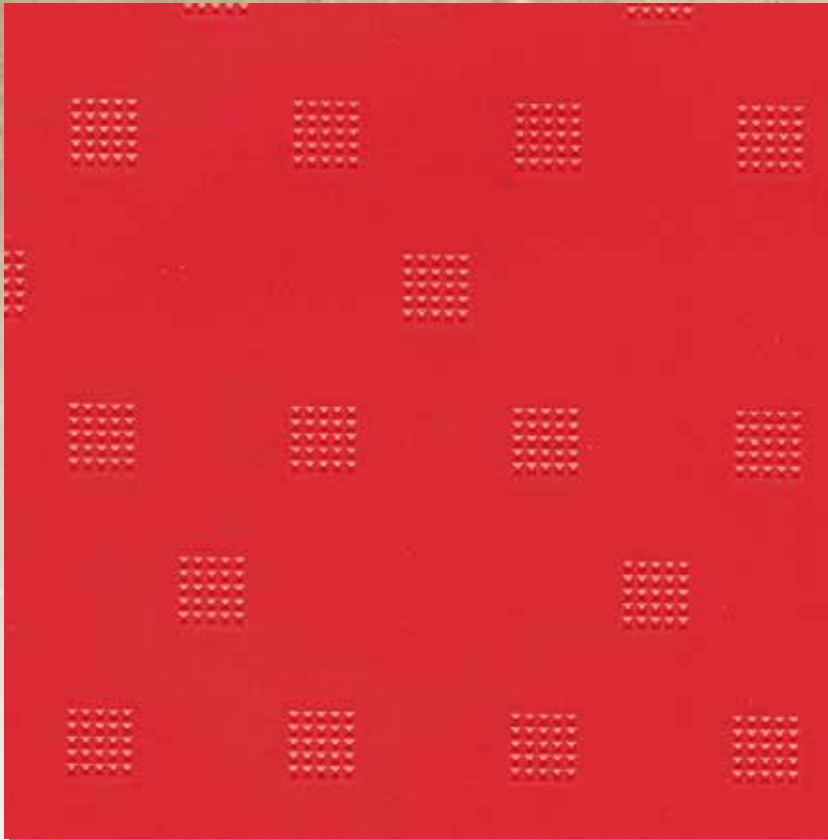

Weave Series

FE Weave

- 12 designs
- High-depth embossing
- Texture appears woven
- Durable-dirt and abrasion resistant
- Suitable for **interior applications only**

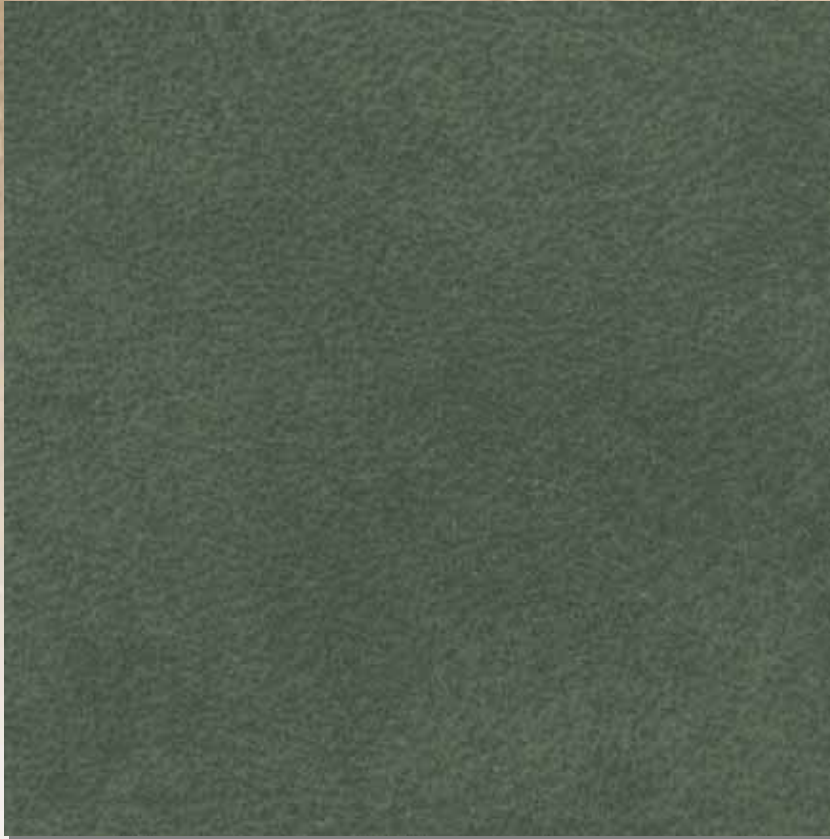

G-Emboss Series

GE G-Emboss

- 8 designs
- Geometric patterns
- Select designs suitable for **exterior** applications
- Solid and metallic colors

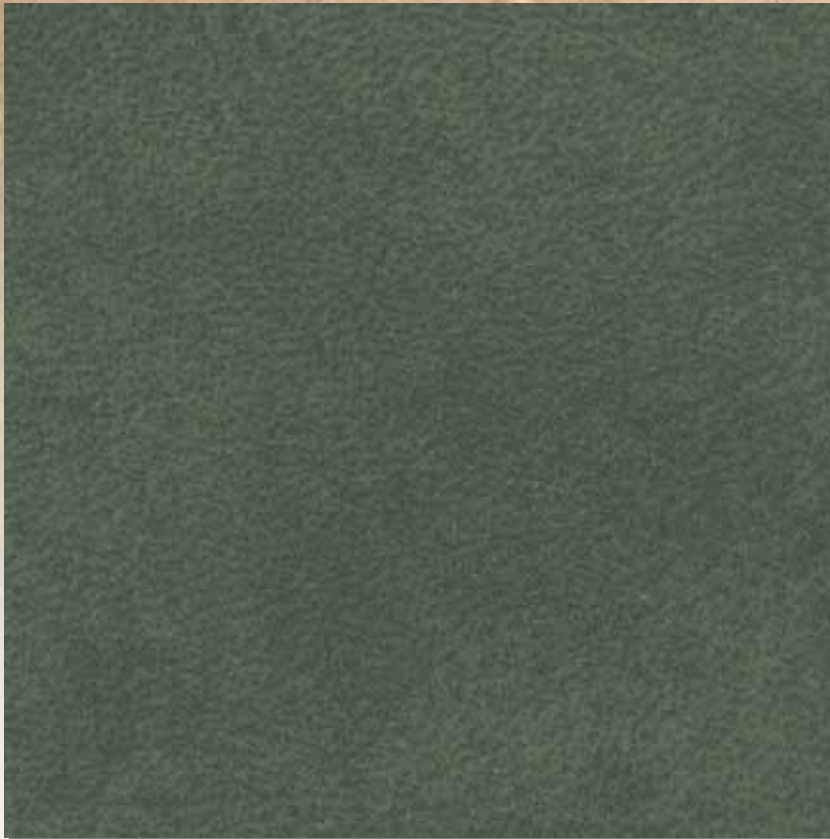

Leather Series

LE Leather

- 25 designs
- Feels like real leather
- Select designs suitable for **exterior** applications

Suede Series

NX • VS Suede

- 4 designs
- Suitable for **interior applications only**
- VS Series is stain resistant

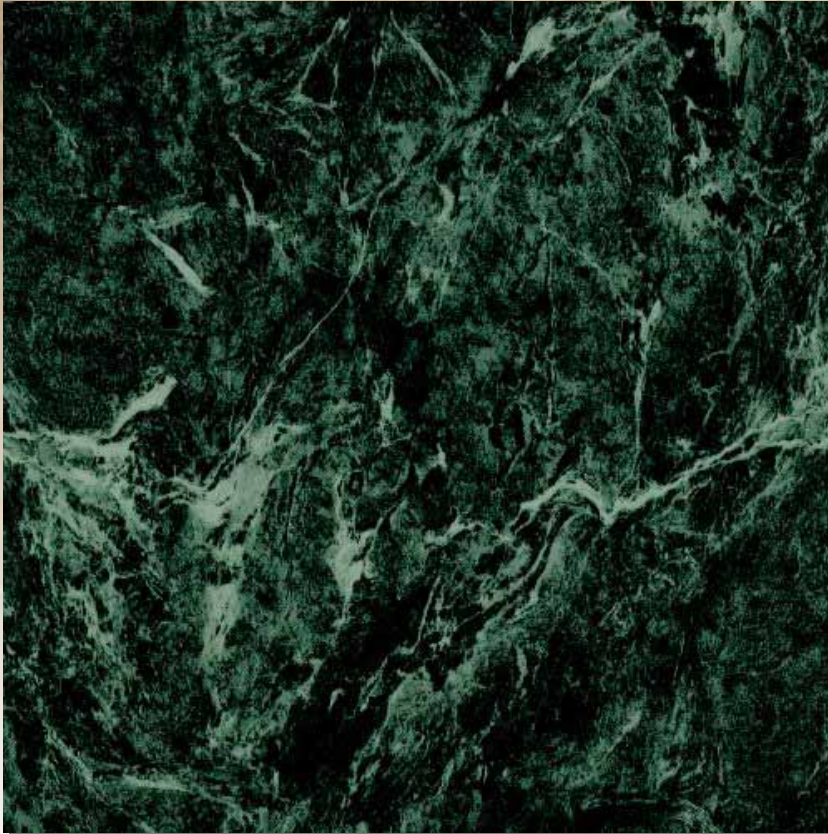

Sand Series

PC Sand

- 13 designs
- Realistic sand appearance

Stone Series

ST Stone

- 11 designs
- Authentic look and feel
- Suitable for **interior applications only**
- All designs suitable for **3D applications**

Stucco Series

SE Stucco

- 13 designs
- Look of Italian plaster
- Muted and vibrant shades

Terracotta Series

FA Terracotta

- 3 designs
- Suitable for **interior applications only**

DI-NOC™ Film Floor Series

DF DI-NOC Floor

- 9 designs
- Suitable for **interior applications only**
- Countertops and tabletops
- Resists scratches, wear and dirt
- Anti-bacterial feature

Abstract Soft Series

PT • PX • TX • FA • SE

- 26 designs
- Select designs suitable for exterior applications
- All designs suitable for 3D applications

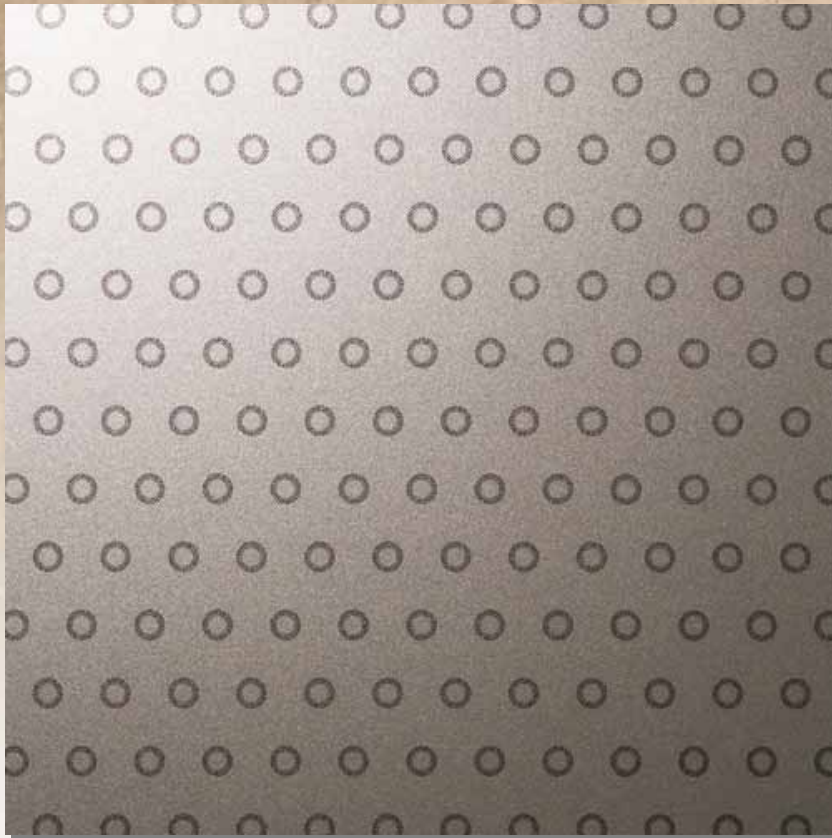

Abstract Hard Series

PG • LZ Abstract Hard

- 15 designs
- All designs suitable for **interior applications only**
- All designs suitable for **3D applications**

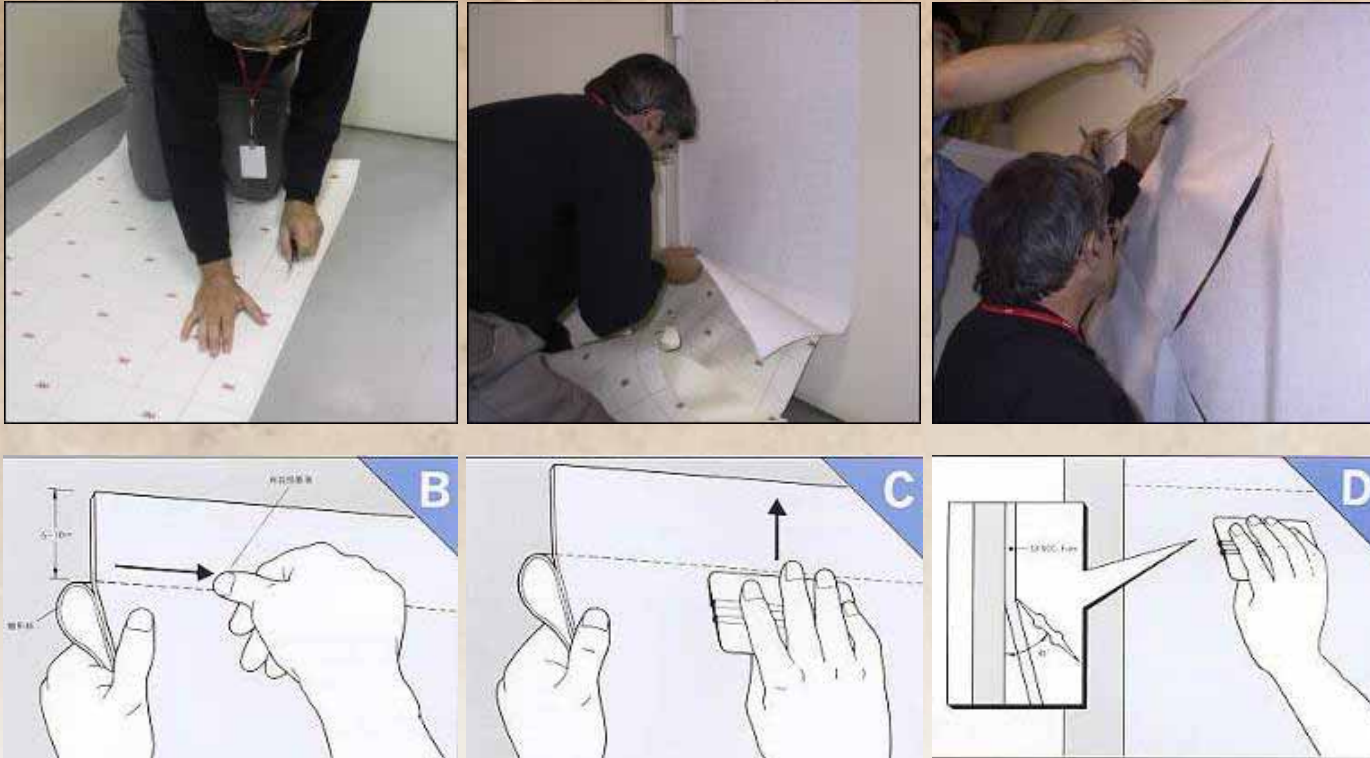

DI-NOC™ 21 Series

DI-NOC 21

- 26 designs
- Suitable for **interior applications only**
- Geometric patterns

Fast Application

Light weight allows on-site application on the existing substrate resulting in faster application and overall reduced cost.

Easy Application

No dust, no noise,
no hassle,
no problem.

No need to close
shop during
application
reducing downtime
losses.

Butt Joint Application

Butt Joint Application

Primer Application

Use primer for the most demanding substrates and shapes.

Primer Application

Applied around a primed edge and neatly trimmed.

3D Application

Thermoformed Application
